We love our  
Macs!

# 🍏 LAKESHORE MAC

THE MACINTOSH EXPERTS

## Monthly E-letter

Useful, creative,  
and easy information  
to make owning a Mac  
just that much  
better! From your  
friends at  
Lakeshore Mac

## iTunes Plus

Higher-quality, DRM-Free Music

**iTunes Plus.** Was just introduced by Apple. It's DRM-free, highest quality audio format. The sound of iTunes Plus is virtually indistinguishable from the original recordings. It's 30¢ more per song but for all you audio freaks, it will be worth it! DRM free means that it doesn't have all that copy right stuff embedded in the file so it sounds better.

**New MacBooks Introduced.** The new MacBooks introduced this month, have faster Intel Core 2 Duo processors, a larger hard drive, and more RAM. Bigger and better is always a plus. Get a new MacBook from my web site [www.lakeshoremac.com](http://www.lakeshoremac.com). Just click on the MacMall banner add then click on MacBook. If you need help figuring out what model you need. Give me a call and I will be glad to help you. 269-214-2356.

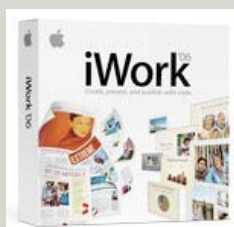

**MacBook Cracks.** If you purchased your MacBook in the middle of 2007, you may have a problem with the splintering of plastics near palm rest edge. This is not a full fledged recall but Apple is aware of the problem. If your MacBook starts to crack, contact Apple at 1-800-275-2273.

**May Updates.** AirPort Extreme Update 2007 -003, Security Update 2007-005, QuickTime 7.1.6, iTunes 7.2. Run your AppleSoftware Updater or go to [www.apple.com/downloads/macosx/apple](http://www.apple.com/downloads/macosx/apple).

**Desktop Clutter.** Desktop Clutter can slow down your computer. Keep your desktop clean of all things except for your hard drive. Put files into your Documents folder and create an alias in the Dock by dragging your Documents folder onto the Dock on the right side of the black line near the trash. Click and hold down the mouse on your Documents folder once it's in the Dock and you can easily see it's contents in alphabetical order. You don't even have to be a clean freak to get this benefit but you will look like one. Your computer will thank you by being faster and better than ever!

**Need Computers, Printers, Cameras, etc.?** Lakeshore Mac is a MacMall affiliate and all this great stuff is available through my website at [www.lakeshoremac.com](http://www.lakeshoremac.com). Unsure what to purchase? Call me at 269-214-2356 and I'll be more than happy to help you get just what you need.

## PAGES 2

### JUST WHAT IS PAGES AND HOW CAN I USE IT?

Apple's bundled suite of business software is called iWork 06. Pages 2 is part of the iWork bundle. Pages 2 is like AppleWorks on steroids. It is a word processor that enables you to create beautiful newsletters and brochures. I use Pages to create this newsletter. You can also use Pages 2 to import and export documents between Microsoft Word, AppleWorks, and many other programs. Pages 2 also includes Keynote 3. I'll talk about Keynote 3 next time. You can get iWork via my

website. Just go to [www.lakeshoremac.com](http://www.lakeshoremac.com). Click on the MacMall banner add, then click on Software. In the side bar on the left, click on Business. Scroll down and you will find iWork under Apple Software for \$71.99.
